

Welcome from

Fondation Mathématique Jacques Hadamard

Federates since 2011 the mathematical
community of « Paris-Saclay ».

FMJH supports training and research in
mathematics: **master scholarships,**

Phd fellowships, **post-docs,**
scientific events.

A math education in Paris area?

Paris is the largest concentration of mathematicians in the world
=> many higher education institutions

Focus on three of them :

Université Paris-Saclay

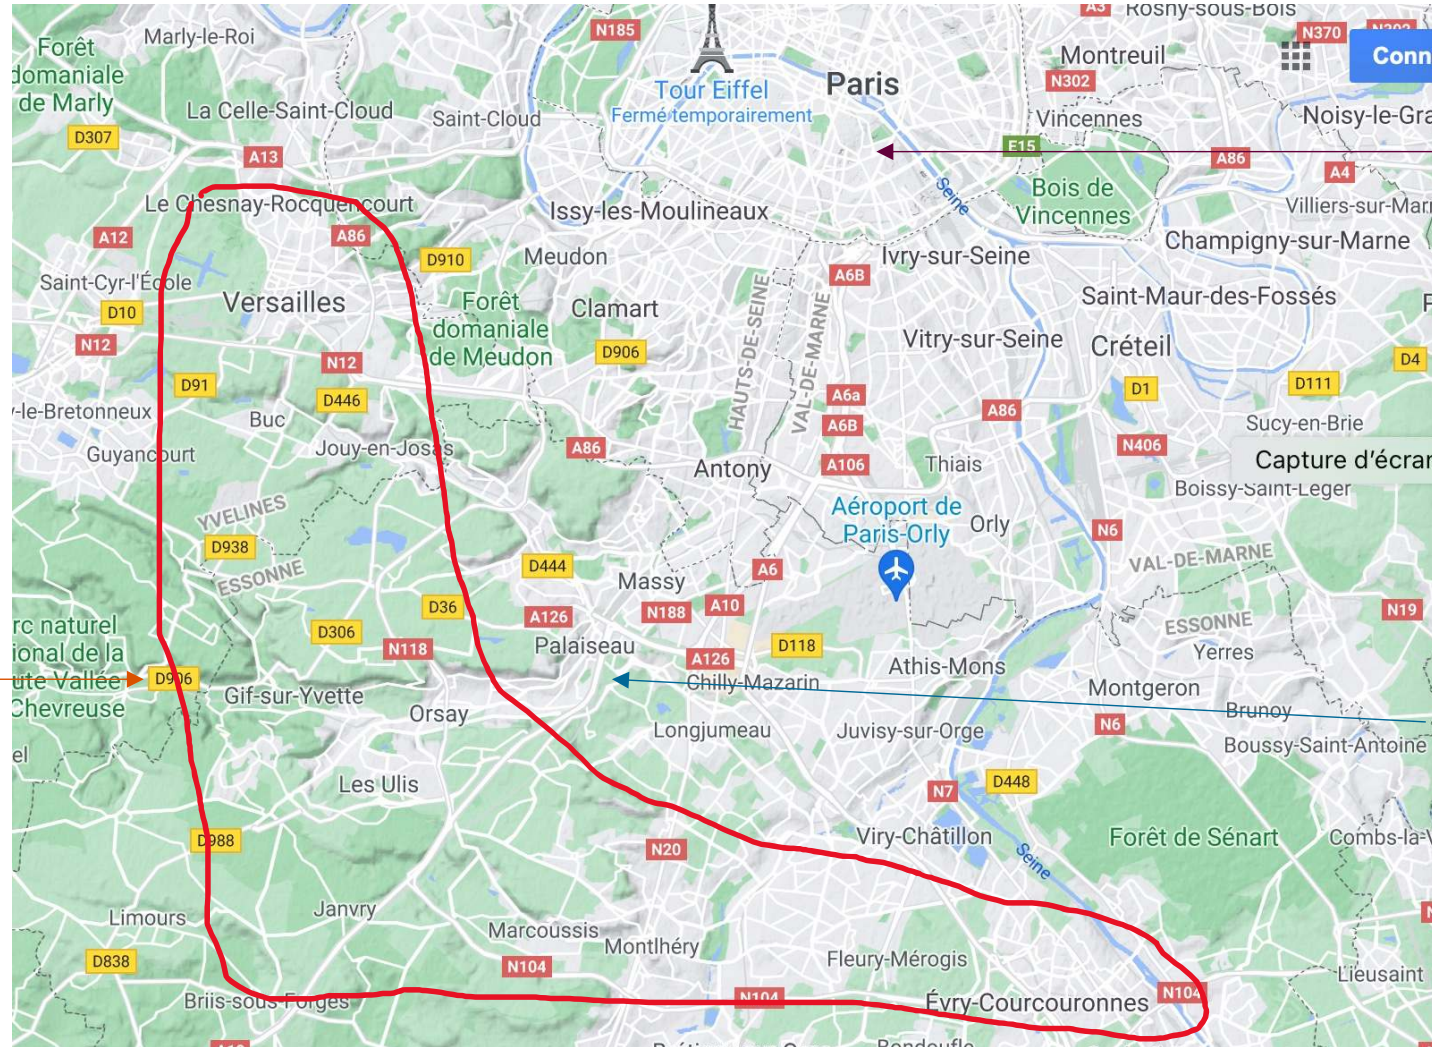

Ecole Normale Supérieure

Ecole Polytechnique

A math education in Paris area?

A math education in Paris area?

université
PARIS-SACLAY

is a very large ensemble, with many sites

Orsay (4 Fields medallists) is a botanical garden

IHES (8 Fields medallists) is in a wild park

Versailles, where kings of France chose to live in the XVIIth century

ENS Paris-Saclay (Abel Prize winner Y. Meyer's affiliation) has a new building

A math education in Paris area?

Ecole Normale Supérieure is much smaller, but 10 Fields medallists have been trained there

Students enter there after 2 ou 3 years of higher education

ENS's historical building in downtown Paris

A math education in Paris area?

Ecole Polytechnique trains engineers under a military status, but it admits foreign students too, after 3 years of higher education

It has two math departments:
- A pure math dpt founded by Fields medallist L. Schwartz.
- An applied math dpt which covers a very broad choice of applications and has strong connections with industry.

A math education in Paris area?

Ecole Polytechnique and Université Paris-Saclay share a common master program.
Admissions after 3 years of higher education

Scholarships are provided by
Fondation Mathématique
Jacques Hadamard
PhD fellowships are provided
by both Université Paris-
Saclay and Ecole
Polytechnique

Welcome to France!
